Activities for Kids, from Our RMHC Family to Yours

RMHC (Ronald McDonald House Charities®) is known for providing physical and emotional support to families around the world. Our programs care for families of ill and injured children, providing some normalcy and distractions to their upended lives.

While all our lives are currently upended during this difficult time, we want to provide some fun for YOU and YOUR family, to provide a little family-centered care to you as well!

If you have kids — or maybe grandchildren, nieces or nephews that you haven't seen for weeks — these activities are a perfect way to brighten their day!

Print this out and relax with your children coloring and completing these activities. Or share this PDF with any special children in your life to let them know that they are close to you in your heart, even when you're separated.

ABOUT RONALD McDONALD HOUSE CHARITIES OF SOUTH LOUISIANA

Ronald McDonald House Charities® of South Louisiana (RMHC-SLA)'s mission is to provide a "home-away-from-home" to families of seriously ill or injured children and programs that give comfort, compassion and care to children and their families. In 2019, its Ronald McDonald House New Orleans was just such a home to 483 families who traveled many miles to receive specialized medical care for their child at nearby medical facilities.

At the Ronald McDonald House families get a free place to stay, meals to eat, transportation if needed, and a built-in support system where families help one other. Headquartered in New Orleans, RMHC-SLA has been keeping families with sick children close together and near to the care and resources they need since 1983.
